Joshua Onyeka Ituma

Flutter Mobile Application Developer

Lagos, Nigeria (Open to Global Remote) • joshua@boukartech.com • +234 000 000 0000 • https://github.com/BoukarTech • https://boukartech.com

PROFESSIONAL SUMMARY

Execution-driven Flutter Mobile Application Developer with a proven track record of shipping high-craft web, AI-native, and cross-platform mobile applications. Multiple-time 1st-place hackathon winner adept at translating complex product requirements into resilient, user-centric systems.

TECHNICAL SKILLS

Backend, Cloud & Tooling: Supabase (PostgreSQL), Firebase (Firestore & Storage), Python (FastAPI), Playwright Automation, Git / GitHub, pnpm

Frontend & UI Engineering: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5 / CSS3, Figma Design Systems, Responsive Web Design

Mobile Application Development: Flutter, Dart, Cross-Platform Mobile Architecture, Custom Animations, REST API Integration, Offline-First State

AI & Agentic Engineering: Vercel AI SDK, Google Gemini API, Agentic State Machines, Structured JSON Outputs, Voice-First AI Interfaces, Streaming UIs

PROFESSIONAL EXPERIENCE

Lead Web & Mobile Developer / Team Lead — BoukarTech Solutions Ltd Feb 2026 – Present | Lagos, Nigeria

- Lead end-to-end architecture and delivery of responsive web platforms and cross-platform mobile applications using Next.js (App Router), React, TypeScript, Tailwind CSS, and Flutter.
- Spearheaded client builds and custom design systems with strict component modularity, dark-mode-first UI aesthetics, and smooth micro-interactions.
- Engineered AI-integrated web workflows utilizing the Vercel AI SDK, Gemini APIs, and Supabase backend services.

Software Engineering Intern — Cavista Technologies Jul 2026 – Aug 2026 | Ilupeju, Lagos

- Collaborated within agile engineering squads to build, profile, and debug scalable enterprise software modules.
- Applied rigorous code review standards, REST API integration patterns, and frontend state management optimization.

Industrial Training (SIWES) Software & ICT Intern — Igbogbo Bayeku LCDA (ICT Unit) Aug 2025 – Nov 2025 | Ikorodu, Lagos

- Completed a 12-week technical placement optimizing local government ICT workflows, network diagnostics, and web utility interfaces.

Frontend Web Development Intern — SideHustle Apr 2023 – May 2023 | Remote

- Built responsive, accessible frontend web interfaces translating Figma prototypes into clean HTML, CSS, and JavaScript/React components.

FEATURED ENGINEERING & AI PROJECTS

Vitalink — Remote Patient Monitoring & AI Multilingual Health Platform (1st Place Winner — Cavista Hackathon 2025 & 1st Place — CODEFEST NIGHACK at UNILAG (Nov 2025)) Flutter, Dart, Next.js, TypeScript, AI Multilingual Support, REST APIs

- Built cross-platform mobile and web interfaces streaming real-time patient vitals alongside an AI-powered multilingual mental health support assistant.

DevAssist — AI-Powered IDE & Low-Code Developer Platform (1st Place Winner — Aipreneur 2025 Hackathon by Remo Start) React, Next.js, TypeScript, LLM Code Generation, Tailwind CSS

- Engineered an interactive web-based AI IDE and low-code builder that accelerates scaffolding, debugging, and component generation.

SilentGuard — Voice-First AI Campus Emergency & Distress Parser (NANS JCC Lagos Campus Innovate Challenge Entry (Sept 2026)) Next.js, TypeScript, Real-Time Audio AI, Geolocation, Tailwind CSS

- Built a zero-latency voice-first emergency response web application that parses acoustic distress signals and dispatches live campus geolocation alerts.

AreaHustle — Voice-First AI Job Marketplace & Financial Identity Engine (1st Place Winner — YPIT Artificial Future Summit (Lagos, June 2026)) Next.js, TypeScript, Gemini AI, Voice Processing, Tailwind CSS, Supabase

- Engineered an AI-powered voice-first job marketplace and financial identity engine enabling informal workers to match with verified opportunities via natural speech.
- Built real-time multilingual audio parsing and dynamic financial trust scoring interfaces.

EDUCATION

B.Sc. in Computer Science — Lagos State University of Science and Technology (LASUSTECH) Lagos, Nigeria
